New students and Advisors of returning students should provide and note the following information

Enriched classes are offered in most subjects. Students in these classes will usually cover some material not included in regular level courses. In addition, the treatment of all course material, the pace of learning and expectations for student success are more rigorous. Students in these classes enjoy the challenges offered in them and achieve at a very high level in that discipline.

Interest in taking enriched courses does not guarantee your placement. Acceptance is determined by previous achievement and/or teacher recommendation; the final decision regarding an enriched option will rest with the Department Head. Please check "enriched" for those courses you feel might be appropriate. Are there any factors we should be aware of in your class placement?
